Late Model Direct Fit

Taking the guesswork out of ordering wheels for Modern Muscle Cars.

## RESEARCH

Billet Specialties engineers gather extensive factory data, perform vehicle scans, and complete real-world test to ensure every recommended wheel clears factory brakes and suspension while maintaining a confident, aggressive stance under the fender.

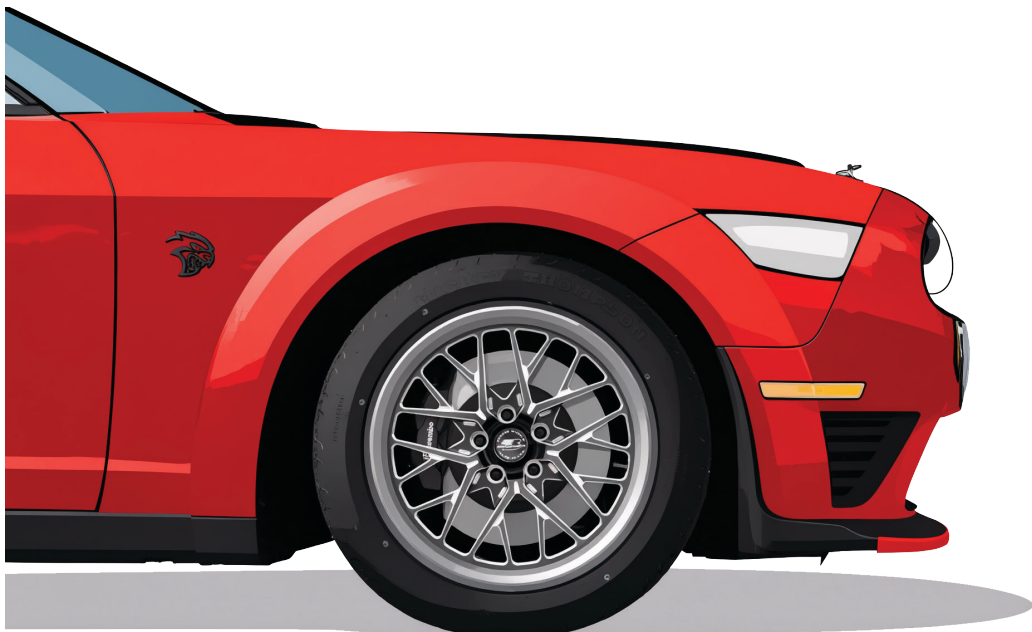

*No measuring. No trial fits. Just direct-fit confidence.*

## QUALITY

Every wheel center is machined in-house from premium 6061-T6 forged aluminum, then mated to a precision-spun 1-piece 6061 barrel. The result, a lightweight wheel engineered for maximum strength, balance, and trueness.

*No compromises. No weak points. Just pure performance.*

## ***FINISH***

With over 40 years of wheel-building experience, Billet Specialties has set the standard in finish quality. From mirror-polished surfaces to durable coated finishes, every wheel reflects the craftsmanship and detail that define our name.

***No shortcuts. No substitutes. Just flawless finish.***

## ***DELIVERY***

Our Race Series wheels are built, finished, and assembled under one roof, ensuring consistent lead times and quality control from start to finish.

***Fast. Reliable. Dealer-Focused.***

## LATE MODLE DIRECT FIT

Drag Pack wheels offer performance, ease of installation and light weight for your modern muscle car. One-piece mono block forged wheels are the ultimate upgrade over the heavy factory wheels. Rear wheels start at 18.2 lbs. for a standard wheel and 22 lbs for a single Beadlock. Front wheels weight as light as 14lbs.

**Milled Bolt Pad**  
For maxium weight reduction.

**Knurled Rims**  
To eliminate tire slippage.

**Optional Beadlocks**  
For ultra tire grip.

- Caliper Clearance to fit around todays large factory brakes.
- Accepts factory conical seat lug nuts.
- 6061-T6 Forged Centers
- Direct fitments for today's modern muscle cars makes ordering easy.
- Standard or single beadlock rears.
